PREMIUM SPRING INNERSPRING SYSTEM

Exclusive manufacturing ingenuity and **revolutionary** coil design combine to create this **premium** pocketed innerspring.

Produced exclusively by **Leggett & Platt**, Joey utilises **advanced** coil within a coil technology, generating a sleep system that **intelligently** responds to individual body weights, shapes and sleep patterns.

Strategically targeted springs contain **secondary interior coils**, once engaged these interior coils increase in firmness as more weight is applied, making this a

“self posturising” system that identifies and reacts to every individual body movement. Joey coils offer **sublime** levels of sleeping comfort with essential **body alignment** and support characteristics!

*The **Active Support Technology™** of innersprings allow your muscles to relax in a more natural sleep position.*

The coils adjust instantly to your sleep movements, comforting and supporting your body actively.
