## the **low height** pocket range

The latest ultra **low profile** pocket product available from **Leggett & Platt**.

Our advancements in fine wire technology allow us to manufacture a range of very low profile pocketed innersprings, called the low height pocket range, these products are available in coil heights of 4, 5 and 6 cm.

Offering exceptional levels of comfort, quality and consistency, combined with the variety of available height options and the ability to create multi-layered units, make this product an extremely versatile and exciting proposition.

### **Possible uses include:**

- Double decker units.
- Triple decker units.
- Surface layer units or mattress toppers.

*They can also be upholstered to the deckboards of adjustable beds, generating a luxurious feel and enhancing the overall support characteristics of the system.*
